Our Suppliers

Prosurv Consult Limited operates a supplier policy and maintains a preferred key supplier list. We conduct due diligence on all suppliers before allowing them to become a preferred supplier. This due diligence includes an online search to ensure that particular organisation has never been convicted of offences relating to modern slavery (and where applicable site audits which include a review of working conditions). Our key sub-contractors are required to confirm that no part of their business operates contradicts the policy.

In addition to the above, as part of our key suppliers, we require that they confirm to us that:

- They have taken steps to eradicate modern slavery within their business;
- They hold their own suppliers to account over modern slavery;
- (For UK based suppliers) they pay their employees at least the national minimum wage/national living wage (as appropriate);
- We may terminate the contract at any time should any instances of modern slavery come to light.

Finally, the company will submit an annual report (to whoever requests) into its 'due diligence' and its ongoing commitment and support to ensure the practice of slavery and human trafficking has no place within the company, both at this present time or at any time in the future.
